

## CONTENTS

		Page
Huynh Thi Minh Hang Dao Phu Quoc	Using woody plant in purifying the air polluted by NO <sub>x</sub> , SO <sub>2</sub>	5
Diep Thi My Hanh E. Garnier Zarli	<i>Lantana camara</i> L., plant accumulating lead from soils for decontamination	13
Truong Thanh Canh Ngo Thi Tram Anh	Application of macroinvertebrates for assessment of water quality in 4 main canal systems in Ho Chi Minh City	25
Lê Phi Nga Nguyen Thi Thu Hien Nguyen Thi Hoa Lien Duong Thi Huong Giang Dinh Duy Khang	Ecotoxicology tests based on the respiratory chain activity of beef heart mitochondrial particles	33
Nguyen Thi Ngoc An Duong Thi Bich Hue	An actual state of heavy metal pollution in green vegetables in the suburb of Ho Chi Minh City	41
Hoang Thi Thanh Thuy Tu Thi Cam Loan Nguyen Nhu Ha Vy	Geochemical study of selected heavy metal in the aquatic sediments of Ho Chi Minh City	47
Le Thanh Hai	Development and application of stabilization/solidification (s/s) process in treatment and reuse of sludge/sediments containing heavy metals	54
Le Duc Trung Nguyen Ngoc Linh Nguyen Thi Thanh Thuy	Utilization of natural adsorbent materials for heavy metal uptake from industrial waste sludge	63
Nguyen Van Phuoc Vo Chi Cuong	Enhancement of cod removal efficiency in treatment of non-biodegradable organic substances in landfill leachate by Fenton oxidation process	71
Le Song Giang Nguyen Thi Phuong	Numerical calculation of dust and smoke transport on complex topography	79
Nguyen Ky Phung Nguyen Khoa Viet Truong	Modelling water treatment process by artificial neural network	87
